

AHP Course

Course Title: Allied Health Professionals Course

Join us for an engaging and informative course designed specifically for Allied Health Professionals (AHPs) seeking to enhance their expertise in paediatric gastroenterology, hepatology and nutrition. The AHP course aims to equip AHPs with valuable insights, evidence-based practices, and practical knowledge to strengthen their roles in paediatrics. This comprehensive course programme covers the diverse aspects of pediatric gastroenterology, hepatology and nutrition, and brings together leading experts in this area.

Topics include:

Paediatric Nutrition and Public Health Perspectives

Explore the impact of food insecurity on children and public health. Gain practical knowledge on the use of nasogastric tubes and percutaneous gastrostomies in paediatric care. Address tube feeding challenges and solutions. Discover new therapies and nutritional approaches for Cystic Fibrosis.

Gastrointestinal Disorders and Dietary Management

Understand the nuances of short bowel syndrome, principles of parenteral nutrition, and new gluten-free diet guidelines for children with coeliac disease. Learn about the nutritional management of Hirschsprung disease and eosinophilic esophagitis.

Interactive Discussion Session: Collaboration and Case Studies

Engage in a dynamic discussion, sharing experiences and collaborating with peers on real-world case studies. Foster a supportive network within the AHPs community.

Integration of AHPs in Paediatric Healthcare

Explore strategies for embedding AHPs and psychological professionals in neonatal units. Gain insights into the experience of dietitian-led clinics for children with coeliac disease and learn more about the latest guidelines for managing cow's milk allergy.

Challenges and Solutions in Paediatric Nutrition

Understand the role of speech and language therapists in managing feeding difficulties and dysphagia. Learn about the nutritional management of liver disease and engage in an interactive session on total parenteral nutrition through case studies.

Reflections and Future Directions

Reflect on the insights gained throughout the course. Explore opportunities for future collaboration and professional growth in the dynamic field of paediatric gastroenterology, hepatology and nutrition. **Don't miss this opportunity to elevate your skills and contribute to the advancement of paediatric healthcare. Enroll now for a rich and interactive learning experience tailored for AHPs.** [Secure Your Spot Here](#)
