

ESPGHAN-IBUS Learning Zone

ESPGHAN and IBUS are delighted to present this hands-on course on Intestinal Ultrasound for Paediatricians interested in IBD.

Unlock the power of intestinal ultrasound in paediatric Inflammatory Bowel Disease (IBD) management with our comprehensive course!

Open to all paediatricians involved in IBD care and eager to delve into the world of bowel ultrasound, this short program provides a foundational understanding and hands-on experience under the guidance of local and international IBUS experts.

ESPGHAN & IBUS Bowel Ultrasound Learning Zone Highlights:

Open to All Paediatricians: Whether you're just starting out or seeking to enhance your skills, our course is designed for paediatricians keen on incorporating bowel ultrasound into their IBD practice.

Short and Focused: Our concise curriculum is tailored to fit seamlessly into your schedule, offering a quick yet thorough introduction to the principles and application of intestinal ultrasound as well as experiencing a hands-on session with real patients!

Expert Guidance: Learn from the best! Benefit from the expertise of both local and international IBUS specialists who will guide you through the nuances of intestinal ultrasound, sharing insights and best practices.

IBUS Certification: it's mandatory for the participants to

pursue additional modules designed to provide in-depth knowledge and skills, ultimately leading to the coveted IBUS certification.

Don't miss this opportunity to broaden your skills, enhance patient care, and join a community of practitioners dedicated to advancing paediatric IBD diagnostics and **attend the IBUS Learning Zone on Friday, 17 May – 13:30-17:30h CEST.**

[Register today](#) to take the first step toward mastering intestinal ultrasound in paediatric gastroenterology!

Please Note: Places are limited to 50 participants and registration is only possible in collaboration with an **onsite** registration for ESPGHAN 2024.
